

# Make a Statement About Heart Disease! Wear Red and Save Lives.

**Heart disease is the No. 1 killer of women in America.** Join women – and men – across the nation who are **wearing red** and jeans to work, making a donation of \$5 or more and speaking up against this tragic — but often preventable — disease.

Read about these women and others who choose to speak up to beat heart disease at [GoRedForWomen.org/Stories](http://GoRedForWomen.org/Stories).
