

Go Red For Women presents

## *Untold Stories of the Heart*

*Untold Stories Of The Heart*, a riveting 30-minute special featuring Marie Osmond, and NBC's Hoda Kotb will focus on real women's stories of struggle, success and support. Two of the women whose stories are highlighted during the special were chosen by Go Red For Women through a nationwide casting call to represent the many faces of heart disease and to share their untold stories. They are at the heart of Go Red – mothers, sisters, daughters and friends – united to raise awareness and take action against this largely preventable disease.
