

THE IMPACT OF YOUR DOLLAR

The American Heart Association funds more cardiovascular and stroke research than any non-profit U.S. organization except the federal government. In all, we spend about 80 cents of every dollar on research, education and community outreach.

This chart depicts the financial activities of the American Heart Association, American Stroke Association, fiscal year ending June 30, 2023.

31% PUBLIC HEALTH EDUCATION

We help people identify warning signs for heart attack and stroke, provide resources to help people reduce risk for cardiovascular diseases and stroke and embrace healthy behaviors.

- Websites, social media and digital resources
- Consumer publications and call center
- Health initiatives, programs and support materials
- Public service announcements and campaigns
- Health fairs and a speakers bureau

28% PROFESSIONAL EDUCATION & TRAINING

Activities, projects, scientific conferences, training courses and programs are designed to increase knowledge, skills and critical judgment for health care professionals.

- Websites, social media and digital resources
- Professional education programs and events
- CPR/AED training
- Development of scientific guidelines and statements
- Guidelines for hospitals to improve care and treatments for STEMI and stroke patients

18% RESEARCH

Research dollars support scientific studies seeking new discoveries related to causes, prevention and treatment of heart disease and stroke.

9% FUNDRAISING

Most of the Association's campaigns and events are a combination of fundraising and health education activities or materials for soliciting financial support for the American Heart Association's mission, plus related expenses.

8% MANAGEMENT AND GENERAL

Representing general operating expenses for directing the affairs of the American Heart Association.

- Customer relations management
- Finance
- Human resources
- Information technology services

6% COMMUNITY SERVICES

Detection of cardiovascular and stroke-related problems, planning and improving community health practices, conducting rehabilitative programs and supporting special clinical studies.

- Public training CPR/AED
- Advocating for policies to improve health outcomes
